

31 December 1954

MEMO FOR THE RECORD OF THE CLARK COMMITTEE

1. In a very brief discussion (privately) with Colonel Miller this morning, he informed me that he had a "whole stack of questions to be answered by the Agency after the first of the year." Evidently after each of the Hoover Commission's weekly staff meetings (held on Fridays at 1600) he is handed a list of questions which must be answered. He has been holding on to these lists until they assume considerable proportion, and intends to deliver them into our hands after the first of the year.

2. These questions are not the result of his (or Colonel Lane's) tour of the Agency, necessarily, but seem to be directed to them from General Christiansen as the result of crank letters or letters addressed to the Commission from the outside. He read me a few sample questions as follows: "How many ex-OSS employees are hired by the Agency, what are their average grades, how long have they been with the Agency, and how often promoted"? "How extensive are your inactive files (presumably in Archives) and how often are they referred to"? There was also one vague question pertinent to "Reserve Funds" which he glossed over rather rapidly and I was unable to grasp.

3. I asked him if he intended to submit these answers as part of his report, or as a separate report to the Commission. He stated that he would include pertinent questions into the subject material of his report, where applicable, but for the most part the answers would be submitted separately to the Commission, with a copy to Colonel Lane. These questions, when obtained, will have to be broken down into responsible offices, and circulated accordingly. Hence his purpose in holding on to them until they assume their present proportion, rather than handing them out piecemeal. I would estimate he had well over one hundred questions on hand at this writing.
